

NWT Financial Group Rule 606 Disclosure:: 1Q2009

NWT Financial Group, LLC (NWTF) has prepared this report pursuant to a U.S. Securities and Exchange Commission rule requiring all brokerage firms to make available to the public quarterly reports about their order routing practices.

The report provides information on the routing of "non-directed orders" -- any order that the customer has not specifically instructed to be routed to a particular venue for execution. For these non-directed orders, NWTF has selected the execution venue on behalf of its customers. The report is divided into four sections:

1. New York Stock Exchange listed securities
2. Nasdaq Stock Market listed securities
3. American Stock Exchange and regional exchanges listed securities
4. Exchange listed options

For each section, this report identifies the venues most often selected by NWTF, sets forth the percentage of various types of orders routed to the venues, and discusses the material aspects of NWTF's relationship with the venues.

Questions regarding this report should be addressed to the NWTF Compliance Department at (877) 644-1112.

Exchange Listed Options

The chart above shows the percentages of orders placed for securities trading as Exchange Listed Options.

NWTF routes options orders to the CBOE, ISE, PHLX, PCX, AMEX, and Merrill Lynch. It is common for these venues to make payments to brokerage firms for orders they execute at those venues; while NWTF has participated in discussions with a few of these specialists, in many cases payments are made to NWTF on a basis determined solely by the specialists and does not know how the payments were computed. In other cases, recipients such as NWTF are advised by the specialist of the basis for payments, but those terms are set unilaterally by the specialist.
